## O. C. Shepard Co. Medina, Ohio

Medina women in their patriotism are acting on the request of Food Commissioner Hoover and are trying to curtail the use of wheat flour. We are having many calls for all kinds of substitutes for wheat flour and the substitute most in demand is corn meal. It seems to be the most natural substitute and the one we are best acquainted with. Here is a recipe for raised corn bread:

### RAISED CORN BREAD

1 cup cornmeal 1 1/2 teaspoons salt  
2 cups white flour 1 table spoonful butter  
3/4 cup sweet milk or lard  
1 tablespoon sugar 1/2 cake yeast

Scald milk and pour it with 1-2 cup of water over the cornmeal, salt, sugar, and butter (or lard). Heat gradually to boiling and cook 20 minutes in double boiler. Cool, add flour and yeast softened in 1/4 cup of water. Mold. Let rise until double in bulk. Shape in pan, let rise again and put in hot oven. Bake about 50 minutes gradually reducing heat.

**DECLINE IN PRICE**—Note that something has come down in price. It is white middlings. We are now able to sell them at \$2.75 per cwt. which is the lowest price in many months.

**FEEDS**—Cow feed, hog feed, chicken feed, horse feed. Big stock of everything.
